The only enzyme against Fumonisin

Available for all post-pellet applications

## Mycotoxin Survey & Prediction

The longest running and most comprehensive data set on mycotoxin occurrence.

## Spectrum 380®

State-of-the-art mycotoxin analysis

## Spectrum Top® 50

Get a full view of the mycotoxin contamination in your feed

## Mycofix App

Access worldwide mycotoxin occurrence data anywhere

## Digestarom®

Scientifically formulated. Proven results.

The power of phytogenics

## Digestarom® P.E.P. MGE

Matrix-encapsulated essential oils

For all species

## Biotronic®

Innovative pathogen control

Enhanced acidifiers for feed and drinking water

## Biotronic® Top3

Breakthrough in minimizing consequences of bacterial challenges

Powdered for compound feed

## Biotronic® PX Top3

Breakthrough in minimizing consequences of bacterial challenges

Powdered for premixes, compound feed, milk and milk replacers

## Biomin® CleanGrain Plus

Preserve the quality of your feed and silage

Protect against spoilage

## Biotronic® Top Line

The breakthrough in pathogen control

The Biotronic® Top line combines selected organic acids and their salts with a phytochemical and the unique Biomin® Permeabilizing Complex fully utilizing a unique synergism in their mode of action.

## AquaStar®

Fast growth in improved environment

The most complete range of aquaculture probiotics for hatchery, feed mill and farms.

## Levabon® Aquagrow E

The immune modulator for modern aquaculture

Immune system enhancement
